

Response Quick Step Guide

Install PowerPoint Add-in (Mac)

The PRS PowerPoint Plug-in currently only works with PowerPoint 2004 for Mac. Once the Add-in is loaded it will remain resident in PowerPoint, unless you un-install it.

1. Launch PowerPoint.

2. Click on the **PowerPoint option** from the **menu-bar**, and then click on **Preferences**.

3. On the **view tab**, make sure to **uncheck Project Gallery at Startup**.

4. From the **menu-bar**, choose **Tools**, and then **Add-Ins** (may also be listed as Templates and Add-Ins).

5. Click on **Add**, then go to Macintosh HD>Applications>InterWrite PRS>PRS Addin.ppa>Open.

6. Click **OK**.

7. The PRS PowerPoint Addin will appear either with the other toolbars or along the left hand side of the screen.
